Bee The Change

UNCC Coding Bootcamp - Project 3

Bee The Change - Hive Teammates

Krista Brehm - Head Bee Keeper (Git Master)

Kristen Austin - Queen Bee

Allie Valder - Hive Support

Michelle Poplin - Worker Bee

#BeeTheChange

A Website that allows Farmers to get sponsorships to start Bee Harvesting.

The REAL Value in using our site is to help save the most important thing that will ensure the future of mankind. Bees! Bees, along with other pollinators are critical to the survival of man.

This website will help to connect those interested in supporting farmers locally or even around the world. The site also provides for User profiles, User Posts, and User networking.

By sponsoring Bee Hives, Community Gardens, and Farmers, you can contribute to ensuring your tomorrow.

Technologies "Old"

GitHub - Workspace & Merging

Heroku - Deploying

React - Rendering & Creation

React-Bootstrap - CSS

MongoDB - Database Storage & Retrieval of information on farmers & users

Express - Routing

Node.js, NPM, Yarn - Site Performance

API's - Links

Technologies "New"
